About Renewi plc

Renewi plc (LSE:RWI), created in 2017 by the merger of Shanks Group plc (LSE: SKS) and Van Gansewinkel Groep B.V., is a leading waste-to-product business ideally positioned to be part of the solution to one of the main environmental problems facing society today: reducing waste and avoiding pollution. With over 8,000 employees in Europe and North America, we have deep expertise and an unrivalled breadth of waste management products and services.

For us, waste is a state of mind, an opportunity. When we take away someone's waste we do something great with it. We give it as much new life as we can, by turning it into useful products and raw materials for our customers like recycled paper, metal, plastic and glass, woodchips, compost, energy, fuel and other products.

In the process, we protect the world from contamination, preserve our planet's finite resources, enable our customers to meet their sustainability goals, and provide our global customers with an unrivalled product range, combined with local service and attention.

Above all, our team is committed and passionate about our mission: waste no more. Renewi operates across five divisions:
