

Acceptation Conditions

P+MD companies

The P+MD companies are offered as follows:

- Collection in P+MD company bags, older PMD company bags are also allowed
- In a roller container or sales container: either loose or in P(+MD) companies bags.

All other bags are not allowed and will be reason for rejection of the P+MD companies.

This waste flow consists of a mix of plastic packaging, metal packaging and drink cartons and must be collected selectively. **Company packaging or production waste is not allowed, only P+MD waste that is similar to household P+MD waste.**

1. P: Plastic packaging and packaging waste

- Bottles and flasks: water, lemonade, milk, shower products, liquid sauces
- Trays, punnets and containers: cold meats, butter, mushrooms
- Jars, cups and tubes: plastic coffee cups, yoghurt jars, toothpaste tubes
- Foils and bags: drink packaging, chip bag, foil bag (non-commercial)
- Beverage capsules: coffee, tea, ...

2. M: metal packaging

- Beverage and canning cans
- Aerosols for food and cosmetics
- Aluminium containers and trays
- Lids, caps and crown caps
- Beverage capsules; coffee, tea, ...

3. D: Beverage cartons

- Any laminated packaging (type of briquette) containing liquid products

Not permitted:

- All packagings must be correctly emptied.
- Packaging consisting of a mixture of materials which cannot be separated
- Packagings with child-resistant fastenings
- Packaging with one of the following pictograms: 
- Canisters of more than 8 litres
- Packagings of motor oil, lubricants, pesticides, fuels, adhesives, paints and varnishes, silicone sealants packaging
- Styrofoam

If your waste does not meet these conditions, please consult the acceptance conditions below:

Mix of hard plastics / Foil / Residual waste

GENERAL TERMS AND CONDITIONS

In the event of non-conformity, the collector reserves the right to refuse the load in question and/or to charge the resulting additional costs for collection and processing. The list of 'non-compliant' waste is not exhaustive and only serves to clarify some non-compliant flows that require special attention in the context of this waste category.

These agreements on non-conformity and the conditions of acceptance are also always mentioned in the general terms and conditions of sale attached to our quotations.
