

DESCRIPTION

PD is a waste stream that consists of used packaging from companies based in the Netherlands. Packaging to be collected is made from plastic, metal and/or beverage carton and has been emptied by means of shaking, pouring or scraping.

CONDITIONS

PMD companies waste must be presented as follows:

- In a wheelie bin or container, preferably in PD bags
- The PD bags must be transparent in order for the PD waste to be approved. Presence of non transparent bags will be grounds for rejection of the load.
- The container must be at least 85% full, and must be emptied at least once a month

Renewi prefers orange transparent bags. These can be ordered from Renewi.

Permitted

P: Plastic packaging bottles

- Bottles for water, soft drinks, milk, fruit and vegetable juice, oil and vinegar
- Squeeze bottles, cups, jars, bags and tubs for food
- Bottles for detergents, shampoo and soap
- Materials like caps, lids, wrappers, seals and labels may be present

The above packaging must have the following specifications: length ≤ 75 cm, unit weight ≤ 500 grams and volume ≤ 5 litres.

M: Metal packaging

- Beverage and food cans
- Aerosol cans (household items such as hairspray, deodorant, whipped cream)
- Empty blister packs
- Metal lids and caps
- Coffee capsules, chips packets, and coffee packaging

Cans with a deposit do not belong in PMD waste

D: Beverage cartons

- Cardboard packaging for water, lemonade, wine, milk, custard, yoghurt, fruit and vegetable juice, soups and sauces
- Beverage cartons consisting of cardboard/PE or cardboard/aluminium/PE

All PD packaging must be emptied.

Prohibited

- Paint tins, kit cartridges and polystyrene foam
- Agricultural plastic and pond liner
- Contaminated packaging
- SCW, packaging from chemical waste (chemical symbol, bottles with childproof cap)
- Residual paper, cardboard and film, cardboard cups
- Medical waste such as blister strips, needles and surgical masks
- Toys, air beds, garden chairs, crates and video and cassette tapes
- Household items and utensils (buckets, draining boards, etc)
- Non-packaging related materials such as stones, rubber, textile, wood, incontinence material, electronic devices, glass, fruit and vegetable and garden waste
- Animal waste such as carcasses and offal
- Batteries and car batteries

** If deviations in the conditions described are discovered on delivery, Renewi Nederland B.V. reserves the right to refuse the freight or delivery in question, or to accept it under alternative conditions..*

*** Your obligation and opportunity to separate can be found in the Circular Materials Plan (CMP)*
